Hand Sinks with Pedestal Base

ASSEMBLY INSTRUCTIONS

Step 1 - Attach z-bracket to wall.

- Mark a plumb line from the bottom of the "z" bracket (wall clip) at 37" above finished floor.
- Level "z" bracket and assemble to wall (hardware not included).

Note: Position Z-bracket so that the holes are closer to floor.

Step 2 - Attach pedestal base of sink to floor.

- Place pedestal hand sink onto z-bracket.
- Mark/predrill holes to mount to floor mount.

Secure inner flange of pedestal base to floor (hardware not included) —2 holes per side.

Step 3 - Pre-plumb hot and cold water supply.

Pre-plumb in accordance with local plumbing codes.

(If necessary, remove sink from pedestal base via 4 nuts [2 per side] located inside upper pedestal base, and reassemble when done.)

Step 4 - Secure back of pedestal to wall.

3 holes per side, 6 total (hardware not included).

Step 4 - Connect drain and water lines to faucet.

Flush water system and adjust hot water accordingly.

Step 5 - Check all water and drain connections for leaks.

For units with DC-powered components (i.e. - faucet, hot water heater, etc), connect electric to outlets.

Step 6 - Install front panel to pedestal base.

Slip panel upwards under sink body, then slide in at bottom.

Installation is complete.
